**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 5-21, drawn to method of structuring surfaces.

Group II, claim(s) 2, 4, 22-25, 27,29, 31,33, 35, and 36, drawn to method of structuring surfaces wherein second surface of a second substrate is structured.

Group III, claim(s) 3, 26, 28, 30, 32, 34, 37, and 38, drawn to method of structuring surfaces wherein a gaseous medium is introduced into a recess.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common special technical feature of "annealing a joined first and second substrate in such a way that said glass-type material will flow into the recess of a structured surface..." shared by groups I-III, does not contribute over the prior art as shown by Bristol (US 4,883,524).

Art Unit: 1731

Bristol discloses annealing a glass substrate to a temperature that will flow the glass into a recess (see abstract and col.3 lines 15ff).

A telephone call was made to Mathew Schneider on 2/3/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
